

17th Century Sights, 21st Century Style

Experience the best of Amsterdam in two hours—by water!

Explore Amsterdam the way it was meant to be! For 400 years, its sea-loving people have relied on canals for transportation, commerce and leisure. The Jordaan Canal Boat Company invites you to share in this special relationship and discover "The Venice of the North" in comfort.

Glide through the city's crescent-shaped canals aboard one of our authentic 19th century saloon boats. These elegant crafts, masterfully restored, reflect the pride of Amsterdam.

See the impressive canal houses that cost a king's ransom when built in the 17th and 18th centuries. Learn the stories behind the elaborate facades and ornate gables. Or experience the romance of one of our twilight tours along illuminated canals. Enjoy complimentary Champagne, beer, coffee or tea while taking in the unforgettable sights of Amsterdam's Golden Age.

Daily departures from Westerkerk (near the Anne Frank House; tram 13, 14 or 17).

Only 20 seats per boat; reservations strongly recommended.
